This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Advertisement of November 1, 1877, inviting proposals for carrying the mails of the United States in the States of Colorado, Oregon, Nevada, and California; and in Montana, Wyoming, New Mexico, Arizona, Utah, Idaho, and Washington Territories, from July 1, 1878, to June 30, 1882.

D. M. KEY, *Postmaster-General.*

Proposals received until 3 p. m. February 2, 1878. Decisions announced on or before March 30, 1878. Contracts to be filed in the Department, duly executed, on or before June 1, 1878.

POST-OFFICE DEPARTMENT,
Washington, November 1, 1877.

Proposals will be received at the contract office of this department until 3 p. m. of February 2, 1878, for conveying the mails of the United States on the routes and by the schedules of departures and arrivals herein specified, in the States of Colorado, Oregon, Nevada, and California; and in Montana, Wyoming, New Mexico, Arizona, Utah, Idaho, and Washington Territories, from July 1, 1878, to June 30, 1882.

Decisions announced on or before March 30, 1878. Contracts to be executed and filed in the department on or before June 1, 1878.

[Bidders should examine carefully the forms and instructions annexed. Bids must be accompanied by a certified check or draft on some solvent national bank, payable to the order of the Postmaster-General, equal to 5 per centum on the present annual pay on the route when the present pay exceeds $5,000; or in case of new service, not less than 5 per centum of the amount of the bond accompanying the bid, if said bond exceeds $5,000. And when the same persons are sureties on more than one bond their unincumbered real estate must equal in value not less than one-fourth the aggregate of all the bonds on which they are sureties.]

Advertisement June 1, 1878. *Route No.* 34020. *Transfer service, Omaha, Nebr. Let to contract, July* 31, 1878.

POST-OFFICE DEPARTMENT, *Washington, June* 1, 1878.

ROUTE No. 34020.

Proposals will be received at the contract office of this department until 3 p. m. of July 20, 1878 (to be decided on or before July 31), for carrying the mails of the United States between the post-office in the city of Omaha and the railroad stations, and between the several stations where transfer service is required, from October 1, 1878, to June 30, 1882.

The attention of bidders is called to the 253d section of the act of June 23, 1874, which requires that "bidders upon every mail route for the transportation of the mails upon the same, where the annual compensation for the service on such route at the time exceeds the sum of $5,000, shall accompany their bids with a certified check or draft, payable to the order of the Postmaster-General, upon some solvent national bank."

The following schedule shows the mail-messenger and transfer service at Omaha as nearly as it can be stated, but bidders must inform themselves of the amount and character of the service, and the accepted bidder under this advertisement will be required to perform, without additional compensation, any and all new or additional service not herein mentioned that may be necessary when his contract goes into operation, or that may become necessary during the term of the contract, whether to and between depots and landings now established or those which may be hereafter established. Bids must be made with this distinct understanding, and must name the amount per annum for the whole service, and not by the trip. There will be no diminution of compensation on account of the discontinuance of such portions of the service as may become unnecessary during the contract term, but deductions will be made for neglect of duty.

It is required that the wagons employed in the performance of the service shall be built with platform gearings, front wheels to turn under the body; closed body, which shall be built from bed or sills paneled to the height of an ordinary wagon-body; above to be built of plain wood, panel set off with molding, lined with canvas, with covered roof. The height of the center of the roof clear above the floor of the wagon shall be not less than four and a half feet in single wagons, or six and one-quarter feet in double wagons. The rear shall open below by gate to drop to a level with floor of the wagon, to fasten by means of a catch when shut; above, by doors hung on spring hinges, opening outward, so arranged that they shall shut tight against the gate and lock, and when unlocked shall spring open.

The double wagons in all cases, and the single wagons whenever the proper performance of the service requires it, shall have double doors in the side, extending from the paneled frame of the body to the drip of the roof. These doors shall be hung on spring hinges to open outward, so arranged that when unlocked they shall spring open. The doors shall open to a width in the clear of not less than two feet for single wagons and three feet for double wagons. On the front shall be seat for driver, with foot-board, trimmed and furnished in leather.

The wagons shall be kept painted and varnished in a thorough manner, and orna-

mented according to specifications, and shall be kept at all times in good order and appearance.

Full particulars as to style and construction of wagons may be obtained on application to the postmaster at Omaha, or to the Second Assistant Postmaster-General, Washington, D. C.

When mails are carried in the night the wagon must be accompanied by at least one person besides the driver, as guard, both to be over the age of sixteen years, of good moral character, who have taken the oath prescribed by law, and able to read and write the English language. The wagons, horses, drivers, and guards are to be at all times subject to the approval and control of the postmaster; and the mails are to be taken from and delivered into the post-office and cars at such hours, under his directions, as will secure proper connections.

Each proposal must be accompanied by a bond, with two responsible sureties (certified to be such by the postmaster at an office of the first, second, or third class), who shall guarantee that the bidder shall, if his bid be accepted, enter into contract, with good and sufficient sureties, within the time prescribed herein, for the faithful performance of the service. The contract must be executed and returned to the department by September 10, 1878.

In case of failure of the accepted bidder to execute a contract, or of the abandonment of the service during the contract term, the service will be relet at the expense of the failing bidder or contractor.

Bidders are requested to use the printed forms of proposals furnished by the department, which may be obtained at the post-office in the city of Omaha, and to apply at that office for information in regard to the service and its requirements.

Proposals should be sealed, superscribed "Proposals for Mail Messenger and Transfer Service, Omaha, Nebr.," and addressed to the Second Assistant Postmaster-General, Post-Office Department, Washington, D. C.
